TEAMWEAR

For world champions and everyday heroes

Craft athletes work out for freedom, for happiness and for progress – to improve quality of life. We are people of all ages and genders who prioritize physical movement and appreciate design and functionality. We are all athletes, from the everyday active to the world record holder.

Concept overview

Extend 2.0

Updated and refined, Extend 2.0 builds on our premium high-performance training concept. With technical fabrics, taped seams, and an ergonomic fit, it provides excellent freedom of movement, ventilation, and temperature regulation. Lightweight, elastic materials and advanced construction meet the demands of elite athletes, regardless of sport or intensity.

Evolve 2.0

Constantly evolving, this high-intensity concept features upgraded materials and a newly tailored fit, developed specifically for the demands of team sports. Evolve 2.0 is designed to support athletes in their pursuit of performance and continuous development —making it a solid choice for football clubs and other team-based environments.

Evolve 2.0 Contrast

New for the season is Evolve 2.0 Contrast, fresh additions that bring visual edge and functional versatility to the collection.

Squad Go

This innovative concept blends functionality and durability, making it a key addition to any teamwear wardrobe. Made from recycled polyester, the garments offer sustainability and efficient moisture management for optimal performance. Former Squad items are now part of the Squad Go family — reliable essentials for year-round use.

Basket 2.0

Engineered for the game. Basket 2.0 combines performance fabrics, precision fit, and bold design details — created to meet the demands of both top athlete and beginner.

Ability

Our latest Teamwear Concept plays a central role in complementing our entire Teamwear lineup. It serves as a collection of versatile styles suitable for a wide range of activities and purposes.

Rush 2.0

An updated version of its predecessor, boasting a new fit and new materials for improved freedom of movement and even greater comfort. Representing the latest generation of functional sportswear, this collection is made from recycled polyester and comes with a durable, long-lasting design. True to its name, speed and movement are front and center.

Nordic Club 2.0

A fusion of Nordic design and technical innovation. Nordic Club 2.0 delivers clean aesthetics, advanced materials, and versatile performance — made for athletes who value function, comfort, and style in every condition.

Community 2.0

Crafted from a soft blend of organic cotton and recycled polyester, this casual off-the-pitch concept provides a smooth touch and great comfort, continuously elevating the team spirit. Seamlessly integrating the functionality of team sports apparel with a casual design, Community 2.0 makes a perfect choice for branded merchandise featuring club or company logos.

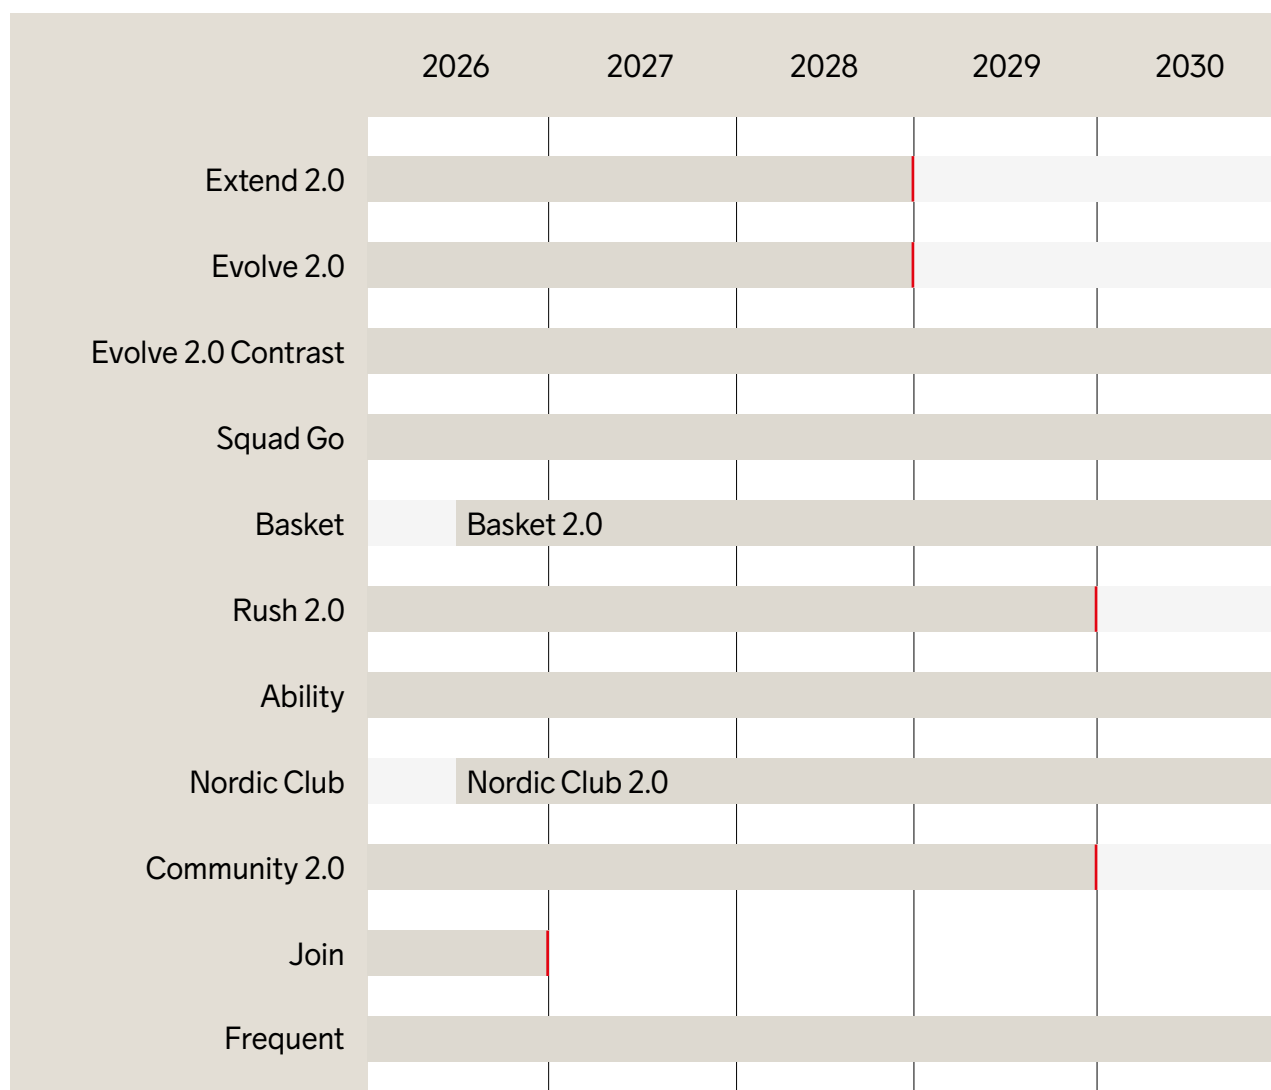

Frequent

Introducing our new oversized sportswear collection, combining clean design, relaxed comfort, and timeless style. Designed for everyday wear when performance gear isn't needed, these generously cut, minimalist pieces are perfect to reach for again and again. Made from 100% organic cotton, they offer a sustainable choice without compromising on quality or style.

Join

Join is a premium active-lifestyle concept that celebrates the serene moments in between workouts. Boasting a sleek Scandinavian design, these sophisticated sportswear garments effortlessly pair with a diverse range of athletic attire.

PERFORMANCE BASE LAYERS

Our performance base layers are designed for those who demand high functionality during training and physical activity. Here you'll find base layers with specific features tailored to both activity type and temperature.

USE

- Worn underneath an outer layer
- Ideal for traditional high-intensity outdoor activities or long days working in cold environments

FIT

- Regular to body-hugging fit

FEATURES

- Technical performance first

FABRICS

- Sustainability first
- Made from synthetic materials and/or wool
- Technically advanced fabrics

The Performance base layers are divided into two subcategories: Active and Wool.

Active

This scale tells you how insulated versus ventilated the base layer is.

Fewer colored dots mean more ventilation (cooling), while more colored dots mean greater insulation (warming).

Use this to find the ideal Performance Active base layer for the temperature and intensity of your chosen activity.

VENTILATION ●●●●○ ○ INSULATION

New packaging from AW25

Wool

This scale shows the weight of the fabric – the heavier the fabric, the more warmth it provides.

Use this to find the ideal Performance Wool base layer for the temperature and intensity of your chosen activity.

Heavyweight 300 g/m²

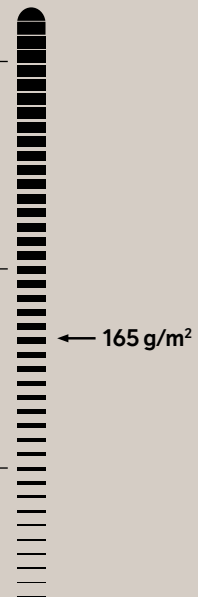

Heavyweight for the coldest conditions.

Lightweight 200 g/m²

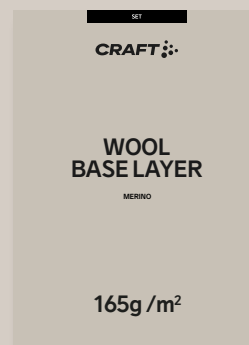

Lightweight for year-round layering.

Featherweight 100 g/m²

Featherweight for mild temperatures.

CRAFT CUSTOM

Stand out from your competitors.

Craft has developed functional sportswear for more than 30 years. Throughout the years we have been working actively with professional athletes to understand the individual requirements - from elite riders, to athletes. You can benefit from this expertise, your club or company.

You can design your very own club clothes - in your own colors and with your own logos. All our products have the same high quality as the regular collection - optimal moisture transport, freedom of movement and perfect fit.

In cooperation with our graphic team, which helps you throughout the process, we create a unique design for your club or company. After your approval, the design will be sent to our factory. Delivery time approximately 5-12 weeks.

Contact us for more information.

CRAFT CIRCLE

RUNNING IN CIRCLES IS THE ONLY WAY FORWARD.

Craft Circle is our sustainability initiative. It is an integral thread that runs through everything we do, from design to delivery and beyond. Its purpose is simple: to promote conscious choices that minimize the environmental impact of our products.

Our initiative is aligned with six of the United Nations' Sustainable Development Goals (SDGs) from the 2030 Agenda, selected for their relevance to our business and where we can make the greatest impact. These six goals guide how we design, produce, and distribute our products, how we extend their lifecycle through circular solutions, and how we collaborate with partners and organizations for a more sustainable future. The goals have inspired us as a company and a brand to set our own ambitious climate targets for the future.

By 2030, our aim is to reduce carbon emissions from our total operations by 50% compared to our base year of 2021. To achieve this, one key step is ensuring all Craft products are made from more preferred materials (e.g., recycled materials) and using more sustainable production methods. Currently, 75% of our products are fully or partially made from more preferred fibers.

You don't just buy a Craft product – you invest in it

We design for the long run for one simple reason: the longer a product serves its purpose, the lower its environmental impact.

For us, this means creating functional and innovative products that serve a clear purpose, made from durable, sustainable materials, and manufactured to high-quality standards to ensure extended use and recyclability. As part of this process, we've developed our Craft design principles and introduced the Lifetime Guarantee program for our base layers.

The Craft-principle

An intensive training session will result in the body producing a considerable amount of sweat. This is just how it should be and a confirmation that you are pushing your limits. If you are not wearing functional clothes, the sweat will remain in place and block the pores, causing your body heat to rise. Eventually the clothes will turn into a damp, cold and heavy “envelope”, relentlessly hampering your performance. If you are wearing functional clothes, however, the skin will stay dry and you will be able to perform at an ideal working temperature. Craft’s functional clothes, in up to three layers, create a perfect microclimate and provide the basis for optimal performance. Each layer is equally important and complements the rest of the chain.

Baselayer

Baselayer that efficiently transports moisture away from the skin and distributes it on the outside of the garment, where it either evaporates or is passed on to the next layer. For optimal performance and comfort, craft baselayer should always be worn underneath your outer layers, regardless of weather conditions.

Midlayer

Craft midlayer provides insulation and warmth while transporting moisture and excess heat to the next layer or into the surrounding air. When the thermometer creeps downward, this layer enables you to retain valuable body heat without reducing your freedom of movement.

Protection Layer

The third and outermost layer is your shield against the elements and provides comfort and performance no matter the conditions. Transcending the laws of logic, craft protection layer protects against rain, wind and cold at the same time as it releases surplus heat and moisture from the layers underneath.

Size guide

Use the chart below to determine your size. If you're on the borderline between two sizes, order the smaller size for a tighter fit or the larger size for a looser fit. If your measurements for chest and waist correspond to two different suggested sizes, order the size indicated by your chest measurement.

How to measure yourself

MEN

A. CHEST

Wrap a tape measure evenly around the fullest part around the chest under your arms.

B. WAIST

Wrap a measure tape around your natural waistline.

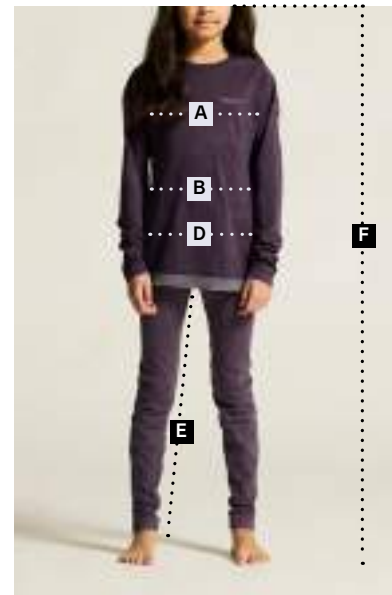

WOMEN

C. SHOULDER AND SLEEVE LENGTH

Measure from the lowest part of the neck, over the tip of the shoulder and down the outside of the arm, past the elbow and to the wrist. Keep the arm slightly bent.

D. SEAT

Standing with your feet together, measure around the fullest part of your hips.

JUNIOR

E. INSIDE OF LEG

Standing with your feet together, measure from the crotch all the way down to the floor. Don't forget to stand as straight as possible. You may have to ask a friend to help you.

F. LENGTH

The total length of your body.

How to measure your feet

Step 1

Stand up straight on a hard surface with your heel against the wall and a piece of blank paper taped to the floor.

Step 2

Have someone mark the longest part of your foot (referred to as heel-to-toe length) on the paper with a pen or pencil, or measure yourself if necessary. Repeat with the other foot, as sizes may be different on left and right foot.

Step 3

Use a ruler to measure the heel-to-toe length you marked for each foot.
